- B. Unless otherwise specified, the Contractor shall transport the listed WSF furnished equipment from the WSF stowage location to the shipyard. Inventory, inspect and stow the material in accordance with the Contract and report immediately to WSF any shortage or damage.
- C. All WSF furnished equipment and all material and equipment used in the Work shall be handled and stored in a manner that will prevent damage from careless handling, exposure to elements, or any other cause.
- D. It is the Contractor's responsibility to install, test, and prove ready for service all WSF furnished equipment. In order to advise and assist the Contractor with the installation and testing of the equipment, WSF will furnish the services of factory representatives for the periods of time described in specific Work Items. Should the Contractor require or desire additional technical service time over and above that provided by WSF, he shall arrange for such service directly with the individual vendors and bear the costs. Should the service of the technical representatives be extended beyond that specified in this Technical Specification due to lack of Contractor preparation, poor Contractor work or negligence or schedule slippage caused by the Contractor, the Contractor will be held responsible for the additional costs incurred.
